Summary

Data Analyst and BI professional with 5+ years of experience delivering enterprise analytics solutions across Retail Intelligence, Marketing Analytics, and Asset Management. Experienced in SQL, Tableau, Snowflake, data modeling, ETL/ELT, KPI scorecards, and executive reporting. Proven track record of partnering with business stakeholders to translate ambiguous requirements into scalable analytical solutions that improve reporting efficiency, data quality, and business decision-making.

Technical Skills

- **Databases & Languages:** SQL (Joins, CTEs, Aggregations, Window Functions), Snowflake, Python (Basics)
- **Data Engineering & Modeling:** ETL/ELT Flows, Data Modeling, Single Source of Truth Design, Data Integration, Data Cleansing, Data Quality Management, Automated Refresh & Publishing, Extract & Workbook Optimization
- **BI & Visualization:** Tableau Desktop, Tableau Prep Builder, Tableau Cloud/Online, LOD Expressions, Parameters, Dashboard Actions, Power BI (DAX, Power Query), Figma-to-Dashboard Design
- **Analytics & Reporting:** KPI Development, Executive Scorecards, Recurring Operational Reporting, Requirements Gathering, Stakeholder Presentations
- **Domain Expertise:** Retail Intelligence (Digital Shelf, Share of Search/Shelf, OOS, Pricing & Promotions), Marketing Analytics, Asset Management Analytics

Professional Experience

Senior Tableau Developer Jul 2025 – Present

Dentsu | Retail Intelligence – COTY Beauty Brands *Bengaluru, India*

- **Analytics Scope:** Owned 55+ dashboards across 5 Retail Intelligence projects for COTY brands, covering 8 KPI pillars (search, shelf, content, reviews, stock, promotions, pricing, sales estimation) on Amazon, Walmart, Target and other retailers.
- **Data Pipelines:** Built Tableau Prep flows that cleanse, join, union, and pivot retailer feeds (search, shelf, pricing, content, reviews) into a single analytics-ready layer, handling 4M+ rows per weekly refresh and replacing 20 hours of manual extract preparation. The standardized Prep flow can be replicated across projects with similar data structures.
- **Data Modeling & Performance:** Modeled retailer, brand, SKU, and category data with consistent keys for brand-to-SKU drill-through, creating a single source of truth across projects. Extract tuning, filter pruning, and pre-aggregation cut load time by 50% (60s to 8s) on 50+ workbooks, earning the **DGS Recognition Award**.
- **SQL & Data Quality:** Wrote SQL (multi-table joins, CTEs, aggregations) to validate and prepare data for reporting, reconciling retailer feeds to keep KPIs consistent across dashboards.
- **Executive Reporting:** Built the Brand View executive scorecard (share of search, share of shelf, content score, ratings, price/promo vs. competitors), enabling 20+ brand teams to identify competitive gaps and prioritize actions. Retailer View compares brand performance across 5+ retailers, exposing retailer-specific gaps in content quality, shelf visibility, and search rank.
- **Executive Scorecard:** Action View merges all KPI pillars into one scorecard with parameter actions, dynamic navigation, and floating containers; rebuilt 12+ Figma designs pixel-for-pixel without losing performance.
- **Operational Analytics:** Monitors 200K+ SKUs for stock depletion and replenishment speed, flagging long stock-outs early so supply teams can step in; prolonged OOS duration fell 50%.
- **Business Analytics:** Scores 200K+ SKUs on title, description, imagery, video, and keywords, and tracks discount depth and price deviations. Content compliance rose 70% and margin breaches became visible weekly.
- **KPI & Market Analytics:** Delivered share of search/shelf, ad banner, digital shelf trend, category insight, and sales estimation views covering 10+ main categories and 50+ sub-categories, used to size market opportunity and plan growth.
- **Stakeholder Partnership:** Partnered with client and brand stakeholders to define KPIs, reporting requirements, and analytical frameworks from open-ended business questions, and presented findings to technical and non-technical audiences.

Tableau Developer / Data Analyst Oct 2021 – Jul 2025
ATOS | Asset Management & Marketing Analytics *Bengaluru, India*

- **Analytics Scope:** Delivered 15+ dashboards and 100+ visualizations for asset management and marketing clients, used by 1000+ stakeholders worldwide.
- **Data Pipelines:** Built ETL and Tableau Prep flows pulling Snowflake and other enterprise sources into reporting-ready tables, processing 20K+ rows every week with 90% on-time refreshes.
- **Reporting Automation:** Scheduled refresh and publishing end to end, cutting manual reporting effort from 40 hours to 20 minutes per cycle.
- **Dashboard Design & Power BI:** Redesigned 10+ dashboards with UI/UX in Figma for easier navigation, and shipped 20+ Power BI models (DAX, Power Query, KPI frameworks). Won the **ATOS Champagne Accolade Award**.

Education

VTU University – KSIT 2017 – 2021
B.Tech in Electronics and Communication *Bengaluru, India*

Certifications & Awards

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Azure Enterprise Data Analyst
- CloudyML Data Analyst Certification | AI Engage Certification
- DGS Recognition Award – Tableau Workbook Performance Optimization & Load Time Improvement
- ATOS Champagne Accolade Award
